

MODEL 90XP

9" Capacity Hand-Fed Chipper

The Model 90XP has a distinguished career of over 25 years, serving tree care professionals, rental companies and municipalities needing a **productive, cost-effective, and durable** chipper. Whether working within brush clearing, utility line clearing, municipal tree maintenance, or rental duties, this fleet-favorite features a wide throat opening and Bandit's **proven Slide Box Feed System**. It's extremely productive and efficient in processing large amounts of brush at once, as well as big limbs and small trees.

90XP

IT'S NOT JUST THE YEARS

It's the mileage. The Model 90XP is easy to tow and maneuver, so even light trucks can easily pull this chipper to jobs, and this 9" capacity chipper has been pulled to an unprecedented amount of jobs in its lifetime. From tree care professionals to rental storerooms, from roadways to right-of-ways, the 90XP has been right at home because of its ability to easily chip a steady diet of trees, brush and prunings.

TAKE IT ALL IN

An operator-friendly, sloped infeed tray allows material to be fed easily and flow smoothly into the chipper. The powerful feed wheel system consisting of two 15.9 CID motors pull, crush, and compress hard-to-manage bunches of leafy and limby brush eliminating sweat from extra sawing or trimming. "It can take it," said many owners after years of dependable service.

MAINTENANCE FRIENDLY

The most common maintenance items are easy to access on Bandit chippers, so daily maintenance is quick and simple. Bolt-in knives are easy to change through the chipper hood, and all service areas are conveniently located, including all grease points.

THE PERFECT GEOMETRY

The Model 90XP uses a chipping disc placed at a 45-degree angle to the infeed opening, making it effective at chipping small diameter logs and brush because the cutting action is more inline with the grain of the wood and movement of the incoming material. Component weight is distributed on a sturdy, balanced frame that provides the necessary physical reinforcement for chipping.

COMMITTED TO QUALITY & SERVICE

The Bandit Backbone™ Support

The Bandit Backbone is Bandit's commitment to customer service and support. It's always been a cornerstone of Bandit's philosophy, and today that backbone is stronger than ever. If you own a Bandit hand-fed chipper—regardless the age, hours, or warranty status—the Bandit Backbone is here to support you.

We Are Here to Support You

There are nearly 200 dealer locations in the US and over 60 international dealers to support you. They are factory trained. Plus we have an experienced parts and service department supporting you and our dealers.

MODEL 90XP FEATURES

- **Last Chance Cables (standard)**
Stops/reverses the feed wheel when pulled in case of an emergency
- **Operator Safety Control Bar (standard)**
Wraps around 3 sides of the infeed chute & controls the direction of feed wheels
- **Wood Pusher Paddle (standard)**
Used to feed small wood debris into the chipper
- **Chipper Hood Pin w/Padlock (standard)**
Prevents unauthorized access to the disc or drum
- **Chipper Hood Engine Disable Plug (standard)**
Prevents engine from being started without the hood pin in place
- **Hydraulic Bottom Bump Bar (option)**
Stops feed wheels via mechanical connection when bumped, diverting hydraulic power away from the feed wheels
